

BUITEMS

Quality & Excellence in Education

BUITEMS

7th CONVOCATION

**Balochistan University of Information Technology
Engineering & Management Sciences**

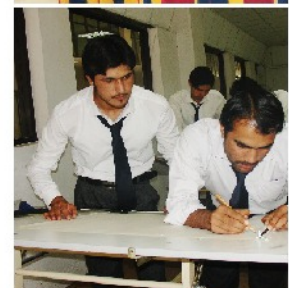

Quality Policy Statement

BUIITEMS contributes in defining standards and systems for the up-lift of socio-economic order through quality education and services by:

- ❖ Providing an environment conducive to learning, teaching, academic inquiry and innovation
- ❖ Maintaining academic excellence and professionalism
- ❖ Adhering to established systems for ensuring good governance for management and transfer of knowledge
- ❖ Benchmarking with other leading institutions of higher education for improvement
- ❖ Enhancing efficient and effective operations by encouraging participation of stakeholders
- ❖ Pursuing continuous improvement through creativity, team work and adaptation to change

For

- ❖ Playing a catalytic role to achieve the national, regional and global harmony.

FOREWORD

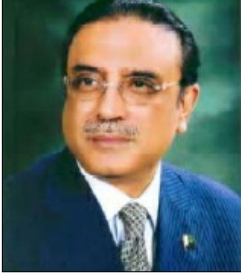

Students of BUITEMS, join the university with the urge to gain meaningful and rewarding education and pass out on the completion of their cherished ambitions with confidence and competence to fulfill their social and professional duties. They are equipped with assurance and intellectual maturity of successfully completing not only the prescribed courses of study but of successfully achieving an emancipated outlook to think and work independently.

BUITEMS looks at her contribution to the nation-building efforts so far, with pride. During the nine years of her history, the University has ever emphasized the importance of independent thinking and emergence of novel ideas and approaches. It is not an institution where cloned individuals are programmed on traditional lines. Here we insist on leaving the imagination free and letting the people draw conclusions rationally. More than 2000 graduates ushered into the professional fields by the University so far have served to build trust in the academic standards and professional performance of our alumni.

BUITEMS has developed a careful plan of strategically moving towards greater heights. 90% of our students hail from Balochistan, while the 10% remaining are from the rest of Pakistan. Such harmony in diversity has ensured fraternity and camaraderie among the students. The acquisition of services of the best available faculty, creation of high standard academic and research facilities, building up linkages with reputed institutions of the world and the congenial atmosphere prevailing at the campus, have all together built up BUITEMS' admirable and enviable image as a model institution of higher learning.

At the 7th convocation of BUITEMS, 557 more youthful students, bubbling with confidence and zeal to apply their minds and skills to the national uplift plans, stand on the threshold of occupational engagements. BUITEMS expects them to devote all their energies and talents to the realization of the dreams of their kith and kin and the dreams of the whole nation. There are immense prospects of growth in every field and they have the capability to translate the ambitions of the people around them, into reality.

Message from
Hon. Asif Ali Zardari
President, Islamic Republic of Pakistan

I am pleased to learn that the Balochistan University of Information Technology, Engineering and Management Sciences (BUIITEMS) is holding its 7th convocation and wish to congratulate the management, the faculty, the graduating students and their parents and guardians on this important occasion. I also congratulate the Governor Balochistan who is also Chancellor of BUIITEMS.

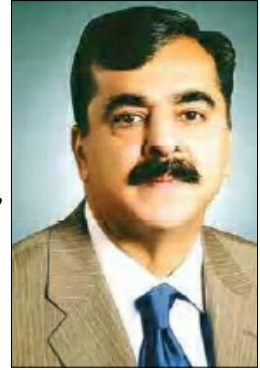

The BUIITEMS has, in a relatively short span of time, developed into one of the prestigious institutions in the country and earned recognition in providing quality education in the disciplines like Information Technology, Engineering, Biotechnology and Management Sciences. All those associated with the University deserve to be complimented for the progress it has made and the milestones achieved. The parents and guardians of the graduating students deserve to be commended for their sacrifices and patience to witness this day. I hope that BUIITEMS will keep on producing professionals of excellence and its alumni will play an effective role in the development of the province and the country.

Convocation is a landmark event in the life of students as it marks the end of one phase and the beginning of another phase in their lives. It is also an important event in the calendar of a University as it affords the faculty and the staff an opportunity to dispassionately assess what it achieved in the year that went by and what lies ahead.

On this occasion, I ask the graduating students to brace themselves for the opportunities and challenges that lie ahead. Whatever you do and how you perform in your practical lives will also reflect on your alma mater. I am confident you will rise to the expectations of the institution and the community which you will be called upon to serve. Once again I wish to congratulate the graduating students, their parents and guardians, the faculty and the administration of the University and wish them good luck in their future endeavors.

Message from
Hon. Syed Yousaf Raza Gilani
Prime Minister, Islamic Republic of Pakistan

It gives me pleasure to know that BUITEMS is holding its 7th Convocation. I extend my most sincere and heart-felt felicitations to the University authorities on this occasion. The success of BUITEMS' passing out graduates owes much to the devotion and efforts of the Vice Chancellor, Engr. Ahmed Farooq Bazai, whose leadership inspired the faculty and students to put up their best efforts. It is due to the dedication and the hard work of the faculty and staff that made it possible for the University to attain distinction for the institution

This is an era of information technology and phenomenal revolution in the world of cyber space has converted the world into a global village. No country of the world can aspire to attain socio-economic development without employing innovative technologies for the benefit of its people. It calls for dedication and application on the part of the universities to focus on this all-important area. The government, on its part, is extending full assistance in this regard.

Balochistan, which is a special focus of the present democratic government, has a reason to be proud of BUITEMS for its great academic achievement. The production of students fully qualified and equipped with modern knowledge in the field of information technologies surely augurs well - a great promise in the desert-land of the educational scenario. We can hope that these young graduates would play the pivotal role in the socio-economic progress of our country as well as the province of Balochistan.

I am sure that they would certainly use their potentials to compete with the world and address its demands in a proactive manner. The examples of excellence set by the outgoing graduates will certainly inspire other students to follow suit. On the occasion of 7th Convocation of BUITEMS, I would like to congratulate you all on your wonderful performance and wish you very best in your future endeavours.

Pakistan Zindabad

Message from
Nawab Zulfiqar Ali Magsi
Governor Balochistan/Chancellor BUITEMS

I am pleased to learn, that the 7th Convocation of Balochistan University of Information Technology, Engineering and Management Sciences is being held during the month of January, 2012.

Convocations are very important occasion in the life of students as well as their parents and teachers. For the students it is the summation of all the hard work and long hours spent in meaningful studies. For the parents it is the acknowledgement that their children are ready to take the lead and bring prosperity, economic growth and peace to the family and the nation, while, this is great pride for teachers to see their students on the threshold of their professional careers, hoping that they would apply all that was taught to them.

I congratulate the graduating students on this occasion and hope that they would face the challenges of their practical life with zeal and determination. I wish them all success in their future life.

Message from
Nawab Mohammad Aslam Raisani
Chief Minister Balochistan

The uplift of any society depends on to its educated members. The men and women toil for the advancement of their society with their thoughts and vision.

Pakistan is no different; year after year the numbers of the educated are rising, and are taking their responsibilities with fervor and sincerity leading Pakistan to a stage of economic growth.

I send my warmest congratulations to the Vice Chancellor Engr. Ahmed Farooq Bazai, the administration and faculty members for this great accomplishment on BUITEMS 7th Convocation. It is a proud day for Baluchistan to witness the conferment of degrees on the passing-out graduates. I believe that they are ready to take charge of their duties in the society and will make a name for themselves and of their nation in their chosen careers.

The future of this nation is in the hands of the new graduates. I exhort them to have courage and show their abilities fully. I expect them to remember the words of Steve Brunkhorst "the greatest inventions and accomplishments began as the flicker of an idea. This tiny flame was then fuelled by desire and faith. Watch out for these little ideas; you have the potential to turn them into great things".

Message from
Dr. Javed R. Laghari
Chairman, Higher Education Commission

I am pleased to learn that Balochistan University of Information Technology, Engineering and Management Sciences (BUIITEMS) has scheduled its seventh successive convocation and extend warm wishes to the Vice Chancellor BUIITEMS, Engr. Ahmed Farooq Bazai, the faculty and management in their efforts to manage the event successfully.

It is a matter of immense pleasure to see that BUIITEMS is focusing on paving the path for progress of the society by providing well trained human resource required for full utilization of our resources. BUIITEMS is a new addition to the network of higher educational institutions envisaged by the Higher Education Commission (HEC), and it is encouraging to see that the university is producing high calibre graduates from the very beginning for the development of the society and it has consolidated its position as an institution of trust.

Higher Education Commission has been supporting BUIITEMS since its inception and it will keep on doing so in future. It's unfortunate that budget cuts on higher education compelled us to dismantle some areas of training and development, but our commitment to higher education stands fast and we are committed to realizing our cherished goals.

We encourage Public sector universities to move ahead to have their feet fixed firmly on the ground so they may not totally depend on HEC for finances. In this context civil society has to play a leading role. Industries and professional organizations are required to sponsor academic development for the sake of consolidating their own foundations. We appreciate all the stakeholders for their interest/input towards the betterment of higher education in Pakistan.

May ALLAH guide us in all our endeavors.... Ameen

Introduction by
Engr. Ahmed Farooq Bazai
Vice Chancellor BUITEMS

BUITEMS has marched into the 10th year of her history with the assurance that the well-oiled wheels of this machinery will keep on rolling on to distinctive achievements and enviable accomplishments in future, too. When viewed in the light of our accomplishments, this does not appear to be a tall claim at all. There is a sound base for coming to such an ambitious conclusion.

The basic objective of establishing BUITEMS was to provide quality education in disciplines which are the need of emerging professional fields. With the establishment of this University, modern educational facilities were made available to the youth of Balochistan, at their own door-steps. They were provided opportunities to equip themselves with knowledge and confidence of facing and handling the challenges of practical/professional life. During the nine years of her past history, BUITEMS has maintained steady growth in all components i.e. growth in physical facilities, growth in capable human resources, growth in nature and number of laboratories and equipment installed therein, growth in the number of programs of study and, consequently, growth in the number of students enrolled. From a modest start in a single-building, the University has now assumed the features of a sprawling conglomeration of three campuses , accommodating five faculties, administrative machinery, hostels, playgrounds, expo-center, model research farms, conference halls, electronic systems, lavish lawns and facilities. The faculty strength has crossed the 350 mark, while the students' strength has gone beyond 5000. The University has produced in the past more than 2000 graduates and post graduates, who are contributing to the national uplift. Over 500 more have completed their studies and are waiting for the degrees to be conferred on them at the 7th convocation. They are prepared to shoulder their responsibilities in various professional spheres with confidence and capability.

The University has been continuously focusing on quality research; both on the part of our faculty and on the part of our students; and the results have been highly gratifying. The sizeable number of research articles and books published in reputed national and international journals speaks of the intellectual prowess and industry of our faculty. Almost a dozen of our young faculty members won Fulbright scholarships by dint of their remarkable performance in the tests held for selection of budding and talented scholars. Our students, too, frequently proved their mettle in academic, co-curricular and extra-curricular contests. Almost all of them are now engaged in nation building activities. Winning trophies and notching up top prizes in debates and declamation contests, project competitions and sports events, is acknowledged to be a common trait of our students.

This institution has played a vital role in grooming the overall personalities of the students in order to make them productive and useful members of the community. BUIITEMS' Quarterly Newsletter and Annual Reports signify the outstanding accomplishments of the faculty and the students in every sphere of the campus life. The sprawling campuses of the University are alive with impressive display of youthful vigor and promising talents through-out the day and long after sunset.

BUIITEMS has been contributing to the nation through grooming the youth into culturally enlightened, academically sound, technologically advanced, professionally competent manpower which is moderate in their outlook but intensely research oriented, ever prepared to lead and inspire their co-workers and to preserve and build the traditions of our great civilization. We bow our heads in gratitude to Almighty Allah for giving us the courage to remold the concept of education in the province. We don't allow the minds of our students to be clamped by rigid dogmas. We encourage them to break the fetters of blind amassing of information and form the habit of independent thinking. We welcome innovation and variety in academic discussions and insist on individual demonstration of capabilities.

PROGRAM

- 11:00 AM** Guests to be seated
- 11:15 AM** Arrival of the Chief Guest
- 11:30 AM** Academic Procession enters the convocation hall
National Anthem
Chancellor Declares the Convocation Open
- 11:40 AM** Recitation from the Holy Quran
- 11:50 AM** Welcome Address by the Vice Chancellor
- 12:00 PM** Conferment and award of degrees
- 12:30 PM** Award of gold medals
- 12:45 PM** Address by the Chancellor
- 13:00 PM** Prayer (Dua'a)
- 13:10 PM** Academic Procession leaves the convocation hall
- 13:20 PM** Refreshments

BATCHES OF GRADUATING STUDENTS

The 7th convocation of Balochistan University of Information Technology, Engineering and Management Sciences (BUIITEMS) is being held to award degrees to the following batches in different programs of study.

1. MS (Biotechnology & Informatics)

- *Spring 2006*
- *Spring 2008*

2. MS (Environmental Management and Policy)

- *Spring 2006*
- *Fall 2009*

Chief Guest : "I declare the convocation open"

Announcement:

- * Recitation from the Holy Quran

Announcement:

- * Welcome address by the Vice Chancellor

Welcome Address by the Vice Chancellor

Engr. Ahmed Farooq Bazai

In the name of **Allah**, the most Benevolent, the most Merciful!

Honorable Chancellor, worthy members of the University syndicate, elite dignitaries, distinguished guests, parents of the passing-out graduates and above all, our successful students,

Assalam-o-Aliakum!

I take this opportunity to extend warm welcome to all of you to the 7th Convocation of BUIITEMS. More than 2000 young men and women have previously crossed the threshold between student life and the professional life. Today 557 more are going to see their cherished dreams and long held aspirations fulfilled. They are ready to start their professional careers with new promise, new energies and new hopes. I wish them success in all their ambitions and endeavors.

Honorable Mr. Chancellor

BUIITEMS has completed nine years of her history and we bow our heads to Almighty in gratitude for blessing us with success in all spheres of our functions. We have made gigantic strides ahead, both quantitatively and qualitatively. In nine years the student strength has gone beyond 5000. Compared to just 90 in 2002, this growth is definitely monumental. Our faculty development program is yielding positive results. Our teachers, sent abroad for higher studies have started coming back after attaining doctorate degrees. Our laboratories are now fitted with equipment which any institution in the world would cherish to have. Our transition from manual systems to latest technological adoption is amazing. The rapid transformation of available resources into dependable and distinguished human capital has transformed the basic outlook about education. BUIITEMS has succeeded in developing a critical mass of academic expertise which is reflected in the research output of our faculty and our students. Our vibrancy as an academic and research institution is geared by our motto of quality and excellence in education.

Honorable sir,

On account of effective planning, pragmatic resource management and dedication of our faculty and administrative staff, we are constantly being cited as a success model in the educational sector of the country. At the time of its inception, BUITEMS was envisaged as a bold and revolutionary experiment, an innovative break through in the underprivileged province of the country. Today that dream has been turned into a reality. The approach and attitude at BUITEMS is discernible as functional norms, in all spheres of activity. Imparting of education here means prompting the students to think and not simply to cover the prescribed courses of study. The integration of curiosity, research and meaningful learning makes our graduates independent and inventive; the traits which are eagerly sought in the professional world. Intellectual freedom and rigorous thinking are the hall marks which give them edge over others in the field.

Distinguished guests, Ladies and gentlemen,

Education, and to be more specific, quality education is the key to moulding the future of the nation. Every capable and industrious student is entitled to pursue his or her studies irrespective of his family background or financial studies. BUITEMS is fully committed to providing financial support to our students. In recent years, we have expanded the scope to every third student enrolled at the University. Our well-wishers and philanthropic organizations are supporting in this regard, but the major contribution to this end is made from the university's own resources. Honorable Chancellor, Nawab Zulfiqar Ali Magsi has long been pleading the need of allocating a small portion of MPA's Development Funds towards the cause of quality education. There have been overtures of positive responses from certain quarters, but mostly the plan is still a cherished dream. Ms. Rahila Durrani and a couple of her conscientious colleagues have, no doubt, come up with magnanimous contributions but others too need to follow suit. I am grateful to the dedicated lady on my personal behalf and on behalf of my colleagues for her generous contributions to BUITEMS.

Respected ladies and gentlemen!

There has been a general shifting of priorities in the country. It has relegated the cause of higher education to back benches through cuts in allocation of funds. On the other hand, we believe that quality education is crucial to the survival of our nation. It is for this reason that we have recently expanded our faculty even in these times of economic uncertainty. It entailed bringing the full diversity of perspectives to bear on the problems of our time. We continue to invest in new facilities, new laboratories and new apparatus for the faculty and our students. Our firm belief in the impact of innovative ideas on the quality of human life keeps us engaged in a common enterprise of breaking the shackles and pursuing our highest aspirations for the future.

Distinguished guests,

The atmosphere at educational institutions is being polluted by occurrences of violence around us. This is the outcome of selfish and narrow approaches in life. Instead of thinking about the total welfare of society, some people are inclined to pursuing their individual interests. This is not the educational approach; it is not the reflection of rationality; it is rather, the stigma of narrow thinking and non-tolerance. Some segments of our diverse society are desirous of imposing their views on others at all costs. Such a social malady needs to be cured in order to pave the way for flourishing of the capabilities of our youth. We, at BUIITEMS, are endeavoring hard to nurture values of respect and patience and to instill in our students the courage to listen to the point of view of others. Only those nations manage to surge ahead where masses are prone to thinking rationally; where rival views and beliefs do not instigate the people to break each others' heads. For the emergence of a civilized and developed society, conditions are required where tolerance becomes a common national trait.

Respected ladies and gentlemen,

BUIITEMS deserves to be given credit for maintaining peaceful atmosphere throughout the academic calendar. We have widened the educational horizons for our students by providing them opportunities of learning through video-conferencing.

Our students and faculty are now in a position to benefit from the gems of knowledge provided by renowned scholars of reputed universities. Acquisition of knowledge is no longer a matter of class-room instructions or native laboratory demonstrations. The vast treasures of information from all over the world are open to our students. We at BUIITEMS are proud of extending the boundaries of our institution beyond geographical restrictions.

Respected parents of passing out graduates,

It is certainly a memorable day for you to see your children being awarded their well-earned degrees. I offer my heart-felt greetings on the proud accomplishment of your sons and daughters. You shared with us a common mission of building up the characters of today's graduates. I assure you that your sons and daughters have acquired the capability of meeting the challenges of their professional lives. Real mastery does not lie in the degrees that they would be holding today. Real mastery is imbibed in their minds and in their characters. This is the valuable asset which adds glory to their achievement. Your children will always be looked upon with admiration and envy. I salute you for your selfless support to them throughout their studentship.

Dear passing-out graduates,

You carry the stamp of genuine hard work and meaningful learning. From today onwards, you will be BUIITEMS' ambassadors to the professional organizations both at home and abroad. You have to prove your educational excellence and sophistication of personalities through practical demonstration of your capabilities and refinement. The research culture pervading at BUIITEMS must have given you the habit of observing things closely and analyzing issues logically in order to draw accurate conclusions. Keep yourselves continuously spurred on to compete for distinctions at whatever level you may be. Your accomplishments would directly add to the glory of this institution. On the other hand any faltering on your part is going to tarnish the image of this mother institution. So be on guard. Be grateful to those who contributed to the nourishment of your skills. Character, courage, industry, sincerity of purpose and professionalism are the fundamental assets of a successful person. Trust in God and trust yourselves and Insha Allah, you will be able to make your mark.

Honorable ladies and gentlemen,

I once again thank you all for being with us today. I am specially indebted to the worthy chancellor, Nawab Zulfiqar Ali Magsi for sparing time out of his multifarious engagements. Your patronage has always been a source of inspiration and encouragement for us and we hope to see such patronage spanning many years to come.

Thank you.

*** Announcement**

Conferment and Award of Degrees

Ladies and Gentlemen! Now is the time for which today's entire program has been arranged. I request the Honorable Pro Vice Chancellor to present to the Vice Chancellor the candidates for the award of degrees of Master of Science in their respective disciplines.

The Pro Vice Chancellor will present to the Vice Chancellor, the candidates for the degree of Master of Science in their respective disciplines. The candidates will stand up in academic robes for the conferment of MS degree.

Pro Vice Chancellor:

Sir I present to you the candidates who fulfilled all the requirements for the grant of the degree of **Master of Science** in their respective disciplines. I request you to confer degrees on them.

Vice Chancellor:

By Virtue of the authority vested in me as the Vice Chancellor of the University, I confer upon you the **Degree of Master of Science** in your respective discipline and charge you to prove yourself worthy of the same, through appropriate professional behavior.

Award of Degrees:-

Faculty of Life Sciences & Informatics

- ♦ MS (Environmental Management & Policy) (Fall-2005)
- ♦ MS (Environmental Management & Policy) (Fall-2009)
- ♦ MS Biotechnology & Informatics (Spring-2006)
- ♦ MS Biotechnology & Informatics (Spring-2008)

The recipients of the degrees will bow to the Vice Chancellor and take their seats.

Faculty of Management Sciences

- ♦ Master in Business Administration

I request the Honorable Pro Vice Chancellor to present to the Vice Chancellor the candidates for the award of degrees of Master of Business Administration.

The Pro Vice Chancellor will present to the Vice Chancellor, the candidates for the degree of Master Business Administration. The candidates will stand up in academic robes for the conferment of MBA degree.

Pro Vice Chancellor:

Sir I present to you the candidates who fulfilled all the requirements for the grant of the degree of **Master of Business Administration**. I request you to confer the said degrees on them.

Vice Chancellor:

By the virtue of the authority vested in me as the Vice Chancellor of the University, I confer upon you the **Degree of Master of Business Administration** and charge you to prove yourself worthy of the same, through appropriate professional behavior.

Faculty of Management Sciences

- ♦ MBA (Regular) (Spring-2008)
- ♦ MBA (After Noon) (Spring 2008)
- ♦ MBA (Evening) (Spring 2008)
- ♦ MBA (Regular) (Spring 2009)
- ♦ MBA (After Noon) (Spring 2009)
- ♦ MBA (Banking & Finance) (Spring-2009)

The recipients of the degree will bow to the Vice Chancellor and take their seats.

I request the Honorable Pro Vice Chancellor to present to the Vice Chancellor the candidates for the award of degrees of Bachelor of Science in their respective disciplines.

The Pro Vice Chancellor will present to the Vice Chancellor, the candidates for the degree of Bachelor of Science in their respective discipline. The candidate will stand up in academic robes for the conferment of BS degree.

Pro Vice Chancellor:

Sir, I present to you the candidates who fulfilled all the requirements for the grant of the degree of **Bachelor of Science** in their respective disciplines. I request you to confer the said degrees on them.

Vice Chancellor:

By the virtue of the authority vested in me as the Vice Chancellor of the University, I confer upon you the **Degree of Bachelor of Science** in your respective discipline and charge you to prove yourself worthy of the same, through appropriate professional behavior.

Award of Degrees:-**Faculty of Life Sciences & Informatics**

- . BS Biotechnology & Informatics (Fall-2007)

Faculty of Management Sciences

- . BS Business Administration (Fall-2007)
- . BS Economics (Spring-2007)
- . BS Economics (Fall 2007)

Faculty of Arts & Basic Sciences

- . BS Social Science (Fall-2007)

Faculty of Engineering

- . BS Chemical Engineering (Fall-2007)
- . BS Petroleum & Gas Engineering (Fall-2007)
- . BS Textile Engineering (Fall-2007)

Faculty of Information & Communication Technology

- . BS Computer Engineering (Fall-2007)
- . BS Telecommunication Engineering (Fall-2007)
- . BS Electronic Engineering (Fall-2007)
- . BS Computer Science (Spring- 2007)
- . BS Computer Science (Fall -2007)
- . BS Information Technology (Fall-2007)

The recipients of the degree will bow to the Vice Chancellor and take their seats.

AWARD OF GOLD MEDALS

Ladies and Gentlemen! "Quality and Excellence" in Education is the motto of our University. We hold those students in high esteem who excelled as students through their high intellectual zest and continuous hard work and acquired top merit positions in various programs of study. It is imperative that their achievements are duly recognized and eulogized. I request the Controller of Examinations BUIITEMS to present such model students for the award of gold medals.

Controller of Examinations:

The recipients of Gold Medals are requested to please assemble in front of the dais.

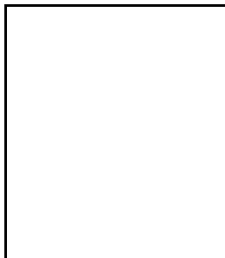

Controller of Examinations:

"Sir, I now present to you **Khadija Kakar D/o Abdul Ghafoor Kakar** who secured top position in MS(Biotechnology & Informatics) with CGPA of 3.83. Her meritorious performance in the batch Spring 2008 is being recognized with the award of Gold Medal."

(The recipient will proceed to the dais in academic costume and remain standing till she is decorated with the Gold Medal by the Chief Guest. She will then bow to the Vice Chancellor and to the Chief Guest and return to her seat).

Controller of Examinations:

"Sir, I now present to you **Razia Ali Khan D/o Haji Khan Ali** who secured top position in MBA (Regular) with CGPA of 3.88. Her meritorious performance in the batch Spring 2008 is being recognized with the award of Gold Medal."

(The recipient will proceed to the dais in academic costume and remain standing till she is decorated with the Gold Medal by the Chief Guest. She will then bow to the Vice Chancellor and to the Chief Guest and return to her seat).

Controller of Examinations:

"Sir, I now present to you **Hira Kanwal**
D/o Irshad Hussain who secured top position
in MBA (Regular) with CGPA of 3.95. Her
meritorious performance in the batch Spring
2009 is being recognized with the award of Gold
Medal."

(The recipient will proceed to the dais in academic costume and remain standing till she is decorated with the Gold Medal by the Chief Guest. She will then bow to the Vice Chancellor and to the Chief Guest and return to her seat).

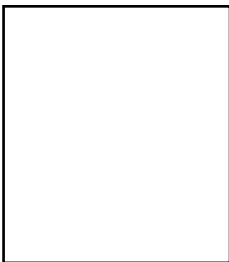

Controller of Examinations:

"Sir, I now present to you **Masoom Ishaq**
D/o Ishaq Ali who secured top position in MBA
(Banking and Finance) with CGPA of 3.92. Her
meritorious performance in the batch Spring
2009 is being recognized with the award of Gold
Medal."

(The recipient will proceed to the dais in academic costume and remain standing till She is decorated with the Gold Medal by the Chief Guest. She will then bow to the Vice Chancellor and to the Chief Guest and return to her seat).

Controller of Examinations:

"Sir, I now present to you **Ghulam Jan**
S/o Ghose Bakhsh who secured top position in
MBA(After Noon) with CGPA of 3.72. His
meritorious performance in the batch Spring
2008 is being recognized with the award of Gold
Medal."

(The recipient will proceed to the dais in academic costume and remain standing till he is decorated with the Gold Medal by the Chief Guest. He will then bow to the Vice Chancellor and to the Chief Guest, shake hands and return to his seat).

"Sir, I now present to you **Anny Zehra D/o Hasan Shaheed Jaffar** who secured top position in BS (Information Technology) with CGPA of 3.77. Her meritorious performance in the batch Fall 2007 is being recognized with the award of Gold Medal."

(The recipient will proceed to the dais in academic costume and remain standing till she is decorated with the Gold Medal by the Chief Guest. She will then bow to the Vice Chancellor and to the Chief Guest and return to her seat).

Address by the Chief Guest Nawab Zulfqiar Ali Magsi, Governor Balochistan

Engr. Ahmed Farooq Bazai Vice Chancellor BUITEMS, Honorable Faculty, Distinguished Guests, Triumphant Graduates, Ladies & Gentlemen.

Assalam-O-Alaikum!

It is a moment of pride for me to be a part of the 7th convocation of this University. It is a day to celebrate the success of graduates and a day of paying tributes to those whose dedicated efforts made it possible for the students to reach the pinnacle of their accomplishments today. Let me recognize their efforts and thank the faculty, the administrators and most especially the parents and guardians of the graduates for their selfless contribution to this formidable task. Hats off to them on their brave and brilliant contributions!

Ladies and Gentlemen!

Earning a degree from BUITEMS is a significant achievement in the life of a student. It is a major milestone attained by the new entrants into the professional world. They would be eager to apply their talents and skills to make a difference in their social, professional and national circles. It is enervating to learn that this University has produced more than 2000 graduates and post graduates in the past and 557 more have been awarded degrees today. This is a tremendous achievement when viewed in the perspective of the silent and imperceptible change occurring in the educational sector of the province. I am confident that the fresh graduates would find job opportunities with ease or they would be able to create them for themselves.

Honorable Mr. Vice Chancellor!

BUITEMS has completed nine years of her existence as an educational institution. During these nine years the University has demonstrated an amazing impetus for growth. I congratulate, Mr. Vice Chancellor on achieving such a level of popularity for BUITEMS that candidates throng to its door for admissions. It is the whole - hearted devotion to work and the spirit of sincerity of all concerned that brought such glory to the University.

I appreciate the pace at which BUITEMS has been marching ahead and winning the reputation of a premier seat of learning, not only in the province but also in the overall educational scenario of the country.

Ladies and Gentlemen!

Quality education is crucial to stabilizing the political and financial development of a country. This is especially true in a time of national and personal economic uncertainties. I am pleased to learn that BUITEMS is providing useful and versatile education to her students. BUITEMS is a University that values science, technology, Engineering, Arts and Basic Sciences. The experiences, the skills and ways of looking at the world gained by the students of this University provide new possibilities for personal growth and professional accomplishments in their practical lives. I am confident that today's passing out graduates gained knowledge that was both broad and deep. It gave them respect for evidence and familiarized them with logical reasoning and analytical thinking. These skills would not only be useful in their careers but would also help them understand complex issues facing our world. I am sure that today's graduate would be able to contribute as informed citizens, much to the public policy debate and decisions.

Ladies and Gentlemen!

If we study the patterns of dominance during the human history, it transpires that for centuries, the world was ruled and managed by dint of force and awe. Now our planet has become highly civilized. It is a world which is intellectually managed and technological based. Such a change was brought about by the momentum of immense knowledge that sprang up from the fountains of renowned universities and research institutions. It is really heartening to learn that the faculty and students at BUITEMS are also actively engaged in discovering new truths and new possibilities. They are striving to make new things happen. I had the occasion of going through the pages of BUITEMS Annual Report for the year which showed the emphasis on research and original thinking. The researchers of this university are producing a sizable amount of research papers and contributing to the emergence of an enlightened global society. I salute them on the valuable contribution to the generation of new knowledge.

Ladies and gentlemen!

The academic scenario of the world does not leave any scope of indifference or complaisance on our part. In order to keep pace with the dizzying pace of scientific advancement, we have to fly at jet speed rather than run on ground only. I expect the students and the faculty to meet the challenge of the knowledge- boom. Knowledge is infinite and offers an inexhaustible and limitless scope of probe and progress.

Mr. Vice Chancellor!

You won't find yourself alone in your struggle for raising the standard of education in the province. I am personally committed to providing all out support and encouragement to institutions which offer promise of providing quality education. I respect the faculty members that are engaged in the task of inculcating the zeal for in-depth acquisition of knowledge among their students. BUIITEMS has emerged as a symbol of hope, as a mark of success and as a proof of commitment and sincerity of purpose on the part of those who manage its affairs. The provincial and the federal governments view your performance with respect and appreciation and we are fully resolved to provide all financial and moral support to this University. I exhort the MPA's and provincial ministers to come forward and dedicate a chunk of their development grants for the cause of quality education in the province and BUIITEMS ought to be their first option for financial support.

Ladies and gentlemen!

I, once again extend warm congratulations to the young men and women who are now on the verge of entering into the professional world after receiving their degrees .I want them to keep in mind that they carry the name and fame of their institution with them. They must make a pledge today to put in all their knowledge, all their talents and all their energies in quest of recognition for themselves and for their alma mater. The government has heavily invested in them and now they owe this debt to the nation and to the institution that they have to repay with their high class services to their fellow citizens. I expect them not to under-estimate their potentials, but to go forward with the resolve of excellence in performance. Insha Allah they will find themselves moving to enviable heights in future.

Pakistan Paindabad

DUA'A

* **Announcement:**

We bow our heads in gratitude to Allah Almighty for the blessings of the fruition of our endeavors and dedication in the pursuit of knowledge. May Allah lead all of us on to the path of righteousness and virtue and guide us on the way of utilizing our knowledge in our practical lives. May further honor and glory come to the recipients of degrees today and may they serve the nation and the country in true spirit of faithfulness.

Allah! Inspire these young men and young women with the earnest desire of expanding their knowledge further and give them the capability of contributing positively to their respective branches of study. Allah! mould their minds and hearts according to the teachings of Islam and make them follow the path of truth with zeal and determination. Ya Allah! Inculcate in the minds of these young men and women, the sense of gratitude to their parents, to their teachers and to the Country, which nourished them physically, intellectually and spiritually.

Allah! Endow them with the qualities of humility, simplicity and patriotism and make them aware of their weaknesses, so that they may be able to shun their shortcomings. Allah! Grant them success in every field they go to and make them beacons of light for the succeeding generations of students. Allah! We request thee to shower renown and repute on our University and grant her greater powers to continue spreading light and truth for all times to come. 'Ameen'.

* **Announcement:** The Vice Chancellor requests the Chief Guest to declare the convocation closed.

Chief Guest: I declare the convocation closed

* **Announcement:** The academic procession leaves the Convocation Hall. The Chief Guest and the dignitaries in front rows will be followed by the guest, faculty and the students in such a way that the front row are vacated one by one. All those accommodated on the back will be the last to leave the hall.

* **Refreshments**

* Departure of the Chief Guest and the dignitaries, parents, guests etc.

OUR VISION

To be among the leading universities of the world – accessible to all, imparting quality education and promoting cutting edge research.

MISSION STATEMENT

At BUIITEMS, we are committed to providing quality education with focus on research and equipping students with the art of living as productive members of society, contributing to the socio-economic uplift of Pakistan in general and Balochistan in particular
