## FOREWORD

Convocation is an immense public occasion when the University celebrates the accomplishments of its graduates. It is a commemoration of a student's life at their University and an opportunity to share this significant milestone with faculty, peers, family and friends. This year BUIITEMS is holding its 9th Convocation to confer degrees and award medals and prizes to those, who proved themselves worthy of the same in undergraduate and graduate programs.

Universities are the hub of academic activities which eventually contribute to the development of a nation. Historically speaking, the developed nations essentially depended on their universities and educational institutions. Keeping in view the current milieu, we at BUIITEMS are committed at imparting quality education to students while promoting the virtues of harmony, tolerance and a visionary approach. The University setting provides a platform that facilitates their exposure to diverse perspectives in a way that encourages respectful understanding of differences, and recognizes those differences as strengths. Our instructive policies postulate three educative domains of good institutions of learning. The cognitive domain where intellectual faculties are exercised to gain more knowledge; The Inductive domain on the other hand is where they merge reasoning abilities with learnt knowledge, to search for the solution of personal and professional problems; and the behavioral domain is which prompts them to go for serene and altruistic living.

At BUIITEMS our focus is on introducing modern techniques, not only in the field of information and communication technology or engineering, but also in the avenues of social sciences and pedagogical and andragogical approaches. At the same time we tend to equip our graduates with art of living through spiriting up in them, adherence to the existing set of values, contributive towards a better society. Standing still in spite of the resource handicaps and the air of political uncertainty, the university is providing this nation with some extraordinary young leaders. This year too, over 700 students are receiving acknowledgment for their hard work and diligence. Their education being contemporarily apt, we are confident that our alumni would contribute considerably towards the society. Even if they choose to set-up their own enterprises, BUIITEMS shall strive to provide them with every possible assistance, through our Business Incubation Center and through showing trust in them.

May Allah Almighty bless our endeavors with success

I am delighted to learn that Balochistan University of Information Technology Engineering & Management Sciences is holding its 9th Convocation this year. An institution gaining such a reputation within 11 years of its existence is indeed a pleasant sign. Education is that one commodity, which empowers the nations through intellectuals and enlightened human resource. Our universities have to serve this objective in order to provide strong foundations for a strong nation.

In this modern age, survival of the nations is widely dependent on advancement, particularly in the fields of research and technology. Higher Education Institutions are our new garrisons; academia our soldiers, ready to take over the scholarly fronts making us stronger. BUIITEMS is one such institution which is setting precedent for new institutions. With its visionary leadership, it has taken over the task of mobilizing the social dynamics in favor of patriotic spirit and it is bringing a positive surge in the academic and social scenario of the country as well.

BUIITEMS being an institution with varied disciplinary options provides the nation with capable professionals in almost every field, ranging from Engineers to Management and Social Scientists. I hope that the students graduating from this institution exhibit professionalism and civic values essential for achieving national and global harmony. It is indeed quite crucial to teach our youth these values so that we understand the worth of the diversity we are naturally gifted with.

My advice to the graduating students is that each one of you has to play important role in our future as nation builders. Celebrate your individuality while respecting others. Once we develop this culture of mutual respect and harmony in our individual and national life, no one can stop us from progressing.

I send my cordial felicitations to the BUIITEMS Family, the graduating students, and their parents & guardians for achieving yet another milestone and wish to see more of these occasions.
